L-bracket

L-brackets are designed to allow the user to mount a regulator or piggyback unit to a wall or flat surface. A panel nut should be used to keep the unit in place. Panel nuts are included as standard equipment on all ARO-Flo regulators and piggybacks, and replacements can be ordered separately.

Model number	Size	Material	Description
104403	1000 Series	Steel	L-type wall bracket
104404	1500 Series		
104405	2000 Series		
104406	3000 Series
